

STAFF REPORT

Ellicottville Planning Department

Permit No: ZP24-89
Request: Area Variance
Applicant: Jacob Flitton
Location: 17 Van Buren Place, Ellicottville, N.Y. 14731
Tax Map No: 55.027-2-1.4
Zoning Districts: Residential District – Medium Density (MD)
Report Date: 2/26/25
Prepared By: Gregory Keyser

DESCRIPTION

This is a zoning permit denial requesting an area variance from the rear yard setback requirement to allow the construction of a new larger deck to replace an existing deck.

ZONING REVIEW

Land Use – The current use of the property involving a single-family residential building is permitted in the MD District and will not change.

Dimensional Requirements

Requirement	MD Standard	Current	Proposed	Compliant
Min. Lot Size	12,500 sf	~ 13,500 sf	No Change	Yes
Min. Lot Width	80'	~ 112'	No Change	Yes
Min. Building Size	1,000 sf	~ 1,800 sf	~ 2,300 sf	Yes
Min. Side Yard Setback (near)	15'	18'-6"	No Change	Yes
Min. Side Yard Setback (far)	15'	48'	No Change	Yes
Total Side Yard Setback	30'	66'-6"	No Change	Yes
Min. Front Yard Setback	35'	38'-7"	No Change	Yes
Min. Rear Yard Setback	25'	25'	9'-4"	No
Max. Building Height	2.5 stories	2 stories	No Change	Yes
Min. Open Space	20%	~ 80%	No Change	Yes

ZONING APPROVALS

Variances – Required.

1. Section 3A 4 (C) (5) – Rear Yard

Required: The minimum rear yard setback for all buildings in the MD is 25 feet.

Proposed: The proposed deck is 9'-4" from the rear property line.

Variance: 15'-8"

Subdivision – Not required. No subdivision is proposed.

Special Use Permit – Not required. The current use is permitted, and no change of use is proposed.

Site Plan Review – Not required. Exterior alterations to existing structures that would not increase the square footage of the existing structure by more than 25% are exempt from site plan review. The new deck will expand the footprint of the existing building by approximately 200 sf or 10%.

Architectural and Landscape Design Review – Required. Exterior modifications are subject to Architectural Design review in accordance with Section 10 of the Village Zoning Code. Planning Board approval is required because the proposed deck exceeds 300 sf and does not meet setback requirements.

Historic District Review – Not Required. The site is not located in the Historic District.

SEQR

The proposed project does not exceed any Type 1 thresholds and meets the definition of a Type 2 Action under 617.5(c)(11) and 617.5(c)(17) involving the expansion of a single-family residence requiring an area variance. As a Type 2 Action, the project is not anticipated to have any significant adverse impacts and no further review under SEQR is required.

COUNTY ZONING REFERRAL

County Zoning Referral is not required because the project site (parcel) is not within 500-feet of any features noted under GML 239-m.

REVIEW PROCESS

1. Application Review – Determine whether the application is complete for public review purposes.
2. SEQR – Classify the project as a Type 2 Action.
3. Public Hearing – Hold a public hearing within 62 days of the date that the application is deemed to be complete and a SEQR determination has been made.
4. Planning Board Referral – Refer the application to the Planning Board for review.
5. Decision – Make a final decision within 62 days after the close of the public hearing. The ZBA Board may approve, approve with conditions or deny the area variance based on the Board's findings and the five balancing test criteria for area variances.

Reasons Supporting Your Appeal

Please provide a **WRITTEN RESPONSE** to the questions for the type of appeal that you are making. These are the criteria that the Zoning Board of Appeals will use to evaluate your appeal.

Area Variance

An area variance is the authorization by the ZBA for the use of land in a manner which is not allowed by the dimensional or physical requirements of the zoning regulations. The ZBA will take into consideration the benefit to the applicant if the variance were granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community. If a variance is to be granted, the ZBA must also grant the minimum variance necessary. In making its determination, the ZBA will consider these five questions for each area variance requested.

1. Will an undesirable change be produced in the character of the neighborhood or will a detriment to nearby properties be created by the granting of the variance?
2. Can the benefit sought by the applicant be achieved by some method, feasible for the applicant to pursue, other than an area variance?
3. Is the requested area variance substantial?
4. Will the proposed variance have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district?
5. Is the alleged difficulty self-created, which consideration shall be relevant to the decision of the board, but shall not necessarily preclude the granting of the area variance.

Use Variance

A Use Variance is the authorization by the ZBA that permits a use of land which is prohibited by the zoning regulations. In order for the ZBA to grant a use variance, the applicant shall show that the applicable zoning regulations and restrictions have caused unnecessary hardship. In order to prove unnecessary hardship, the applicant must demonstrate to the Zoning Board of Appeals that the following tests are met for each, and every use allowed by the zoning on the property, including uses allowed by special use permit.

1. The applicant cannot realize a reasonable return, provided that lack of return is substantial, as demonstrated by competent financial evidence; and
2. The alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood; and
3. That the requested use variance, if granted, will not alter the essential character of the neighborhood; and
4. That the alleged hardship has not been self-created.

Interpretation of Zoning Law Text or Map

Provide a statement that describes what the Building or Zoning Official determined, what you believe should be the interpretation and why.

I have read and am familiar with the applicable zoning regulations for the above noted variances under the Village of Ellicottville Zoning Law or the Town of Ellicottville Zoning Law.

Re: Zoning Permit ZP25-005
17 Van Buren, Ellicottville, NY 14731; Tax Map Number 55.027-2-1.4

Dear Mr. Flitton,

The Planning Department has reviewed your application to construct a new rear deck. The property encompasses approximately 0.31 acres and is zoned Medium Density Residential (MD). The Zoning Permit has been DENIED because the proposed deck fails to meet the following zoning requirements.

1. Section 3A 4 (C) (5) – Rear Yard

Required: The minimum rear yard setback for all buildings in the MD is 25 feet.

Proposed: The proposed deck is 9'-4" from the rear property line.

This letter serves as confirmation that we have received an appeal to the Village of Ellicottville Zoning Board of Appeals for an area variance. Your application has been placed on agenda for the March 4, 2025 ZBA meeting. If you have any questions, please contact me at 716-699-9005, Extension 3 or by email at greg.keyser@evlengineering.com.

Sincerely,

Gregory D. Keyser
Zoning Official
